Special Days

this Month

National Child Abuse
Prevention Month
National Garden Month
1st April Fools Day
2nd Children's Book Day
12th Easter
22nd Earth Day
24th Arbor Day

As the weather has warmed up, and we jump into our Spring planting you will see seeds sprouting and veggies growing all around OC Kids! We are excited to get more use out of our Outdoor Art and Science centers as the weather is warming up and sunnier days are ahead for us! Happy Spring Everybody!

Monthly Curriculum

This month the children will be focusing on:

Our Growing Bodies— after spending some time learning about growing animals teachers will diverge into our own growing bodies. Classes will learn the names of our body parts. Older children will go into more depth focusing on bones, muscles, and organs!

Easter Fun—The children will learn all about the Easter Bunny and his story, review all about Spring and end the week with an Easter Egg Hunt.

Animal Babies— this week children will be learning about animals and their young— everything from the proper names to their specific life cycles.

Keeping Our Planet Clean— in honor of Arbor Day and Earth Day teachers will be teaching the children all about recycling, conservation, and keeping our planet clean. Children will be creating recycled art, and doing observations and predictions about waste and consumption with in our own school!

Around the World— we will travel the world and learn all about different places, cultures and their way of living.

Spotlight on Ms. Samantha!

Hello! My name is Ms. Samantha. I have been working with children in a structured setting since the Summer of 2019. I began working at OC Kids Preschool and Kindergarten since October of 2020. Prior to OC Kids I worked at a preschool in the city of Downey, California for over a year. I have experience working with various age groups, ranging from infants to preschool. At OC Kids, I am the four years old teacher. I am currently attending college to complete my Bachelor's Degree in Child Development and eventually, a Multiple Subject Teaching Credential to become an elementary teacher.

I truly value creating meaningful experiences, thus I plan activities where my student's interests, passions, preferences, skills and abilities are incorporated and celebrated. I am dedicated in creating a rich and optimal learning environment where my student's feel comfortable, secure and a sense of belonging. I strongly believe in establishing and fostering a collaborative environment, therefore, if there are any concerns, comments, or questions, please, do not hesitate to communicate with me. Thank you for your time!
